TASTING NOTES // FRESH CRANBERRY, MONTMORENCY CHERRIES, STRAWBERRY JELLO SHOOTERS

ALCOHOL // 12.5%

UPC // 850066041024

SUSTAINABLE • NO ADDITIVES • NATIVE YEAST
VEGAN • MINIMAL SULFITES

This wine was fermented with native yeasts in sealed stainless steel tanks under pressure of CO_2 for seven days. After pressing, the wine finished its fermentation in stainless steel tanks before being racked off of its lees into tanks to age. Minimal sulfur was added after malolactic fermentation and again before bottling.

The ideal antipasto wine! We recommend serving with a chill — when the label turns blue, you know what to you.
