SUSTAINABLE • NO ADDITIVES • NATIVE YEAST
VEGAN • MINIMAL SULFITES

Aligoté has lived a tenured life as "the other Burgundian grape." But as wine becomes more of a luxury good, makers far and wide have started treasuring its forgiving fruitfulness and everyday sensibility. Aligoté is perfectly suited to thrive on the SLO Coast, historically known as "the other cool climate region" on California's Central Coast ... lying quietly in the fog, waiting for the next wine drinker to make it official that they've found something special.
