

THE RESULT

WHAT IS IT?

TRÄ•KÁL is a totally new type of spirit that merges techniques from various categories and is derived solely from native Patagonian ingredients. It is essentially a brandy base, that we then infuse like a gin. We also use essential oils and vapor-infuse fresh herbs on the third and final distillation. The TTB has classified us as a *'spirit distilled from apple and pear with natural flavors'*. Just like Chartreuse is Chartreuse, we like to say TRÄ•KÁL is TRÄ•KÁL.

TECHNICAL DESCRIPTION

- Triple-distilled using native ingredients and a proprietary method
- Apples, pears, 4 berries, 7 native herbs in essential oils
- 42% Alc/Vol (84 Proof)
- 750 ml
- Chilean sourced bottle, natural cork, wooden top

PROCESS

Using copper stills designed and manufactured exclusively for TRÄ•KÁL, it's distilled in batches using water sourced from an underground river.
